Against All Hope: A Memoir Of Life In Castro's Gulag

Synopsis

Against All Hope is Armando Valladares' account of over twenty years in Fidel Castro's tropical gulag. Arrested in 1960 for being philosophically and religiously opposed to communism, Valladares was not released until 1982, by which time he had become one of the world's most celebrated "prisoners of conscience." Interned all those years at the infamous Isla de Pinos prison (from whose windows he watched the failure of the Bay of Pigs invasion), Valladares suffered endless days of violence, putrid food and squalid living conditions, while listening to Castro's firing squads eliminating "counter revolutionaries" in the courtyard below his cell. Valladares survived by prayer and by writing poetry whose publication in Europe brought his case to the attention of international figures such as French President Francois Mitterand and to human rights organizations whose constant pressure on the Castro regime finally led to his release.

Customer Reviews

Are you ever against adversity?? Then, I would read this book!But I do wish to articulate:I lived near the Northern Border of Mexico, in the early mid 1980s; when Liberation Theology was in Central America; when insurgent movements were across Latin America; I had a shortwave radio and among other things, I listened to "Radio Havana Cuba", I am anglo, but I learned the Spanish language in college. I watched the excellent movie "El Norte" addressing the problems of Mayan Indians from Guatemala migrating to the U.S. (and probably a good unbiased movie to watch as well). I read and read and I saw even Socialist demonstrations in Mexico along with murals for all of

the assorted parties there besides those with the hammer and sickle. But it made me wonder; what is the truth? So famous, is that "Scarface" movie of the early eighties; about a Cuban Prisoner of all things; coming over to Florida on the Mariel Boatlift. During that time, I took a class on Cuban history and I may have been a shade positive attitude towards Fidel Castro; but after reading this book; I became very neutral, not knowing what to think, about the "workers paradise" of that Caribbean isle. Fidel; and in fact, others, Che Guevara and the dictator's brother, Raoul; all are mentioned in this book, additionally in no favorable way; If half of what Valladares writes in this book were true, that would be rather sad for the ruling regime of Cuba; but then, I have to read it, and wonder, what motives would Valladares have to write untruths?
