Star Wars Instrumental Solos For Strings (Movies I-VI): Violin, Book & CD (Pop Instrumental Solo Series)

Synopsis

For the first time, Star Wars(R) A Musical Journey (Music from Episodes I-VI): Instrumental Solos includes selections from all six Star Wars(R) movies arranged for flute, clarinet, alto sax, tenor sax, trumpet, horn in F, trombone, piano accompaniment, violin, viola and cello. The arrangements are completely compatible with each other and can be played together or as solos. Due to level considerations regarding keys and instrument ranges, the wind instrument arrangements are not compatible with the string instrument arrangements in this series. Each book contains a carefully edited part that is appropriate for the Level 2--3 player and a fully orchestrated accompaniment CD. Each song on the CD includes a demo track, which features a live instrumental performance, followed by the play-along track itself. Also included is 4-color art as well as black and white art from the movies. Titles: Star Wars (Main Theme) * Jar Jar's Introduction * Augie's Great Municipal Band * Qui-Gon's Funeral * Duel of the Fates * Anakin's Theme * The Flag Parade * Across the Stars * The Arena * The Meadow Picnic * Battle of the Heroes * Cantina Band * The Throne Room * The Imperial March * May the Force Be with You * Princess Leia's Theme. This title is available in SmartMusic.

Customer Reviews

As a thirty-eight year old, the Star Wars franchise has been an essential part of my life both as a child and as an adult so I was very excited to see that a product like this even existed.About a week

before I purchased this, I had purchased the Lord of the Rings product that was just like this (included the full music, violin music only, and the CD that had tracks with and without the violin part). That product was outstanding and I really enjoyed it so I anticipated receiving this very much. Unfortunately, it is not nearly as good. First and foremost, the quality of the audio on the CD is horrible. This was a brand-new item but the CD was making a skipping/ticking noise (this was even true when I tried to rip it to my computer so I could simply use my mp3 player to plug into my receiver to play). But what was even worse than that is most of the background orchestra is not a real orchestra for the most part. There are some very bad keyboard/electronic sounds being used for brass and woodwind parts that are extremely outdated. This was really a let down for me as the Lord of the Rings background music was the actual orchestra and sounds amazing. Honestly, some of the sounds they used are laughable and sound like MIDI sounds off of an old computer. Finally, as you can see, there tends to be quite a few more songs from the newer films (parts 1-3) and not very much from the classics. This was disappointing as I feel they really left out some decent themes from the classic films and the ones they did include were not such a great sampling (seriously, the cantina song on a violin? meh). I'm keeping this at two stars only because the music seems accurate and is enjoyable to play on its own.
