Great piano book. It's hard enough so there it's a little challenging and more fun to play, but easy enough so it's not impossible. The music is great and it's very fun to play. Hans Zimmer is a brilliant composer. The only reason this got 4/5 stars is because I wish that there was at least one more song in it, but overall it is still a great score!

excellent piano book. songs sound as they do on the soundtrack. The pieces are beautiful to play.
great book

These songs sound just like they do in the soundtrack. The book also has some pictures from the movie. There's not much I can say, but the only problem I have with it is that I wish they had added one or two more songs, but I understand that they didn't because some of these songs are very long. Overall, it is a great piano book.

I love this book! Some of the pieces look daunting at first, but after a bit of practice they are doable. This book is not for beginners.
