Customer Reviews

I'm an investment manager with many clients in medical profession. This book is certainly "Comprehensive". Physicians are inundated with self serving sales pitches for Wall Street & Insurance Industry products. Most don't have the detailed knowledge with which to identify "conflicts of interest" & find the highest level fiduciary who is only working in their best interest (no back door payments from the investment products). I'm going to be sharing this book with any new client from the medical profession...I'll be starting them on the investment chapters (Ch 11, Ch 12, Ch 13).Bravo!

This comprehensive textbook provides an in-depth presentation on the financial planning process and issues facing all modern medical professionals today [early, mid-life and mature practitioners]. It is far beyond the mere Investing and retirement concerns I faced when originally entering practice three decades ago. In fact, the word "comprehensive" is an understatement for this well research, cited and wonderfully insightful modern treatise.DR. BARBARA S. SCHLEFMAN; MS[Tucker, GA]
