Music In Mexico: Experiencing Music, Expressing Culture (Global Music Series)

Synopsis

The complex legacy of Mexico's ethnic past and geographic location have shaped the country and its culture. In *Music in Mexico*, Alejandro L. Madrid uses extensive fieldwork, interviews with performers, eyewitness accounts of performances, and vivid illustrations to guide students through modern-day music practices. Applying three themes-ethnic identity, migration, and media influences-the text explores the music that Mexicans grow up listening to and shows how these traditions are the result of long-standing transnational dialogues. Packaged with a 40-minute audio CD containing musical examples, the text features numerous listening activities that engage students with the music. *Music in Mexico* is one of several case-study volumes that can be used along with *Thinking Musically*, the core book in the Global Music Series. *Thinking Musically* incorporates music from many diverse cultures and establishes the framework for exploring the practice of music around the world. It sets the stage for an array of case-study volumes, each of which focuses on a single area of the world. Each case study uses the contemporary musical situation as a point of departure, covering historical information and traditions as they relate to the present. Visit www.oup.com/us/globalmusic for a list of case studies in the Global Music Series. The website also includes instructional material to accompany each study.

Book Information

Series: Global Music Series

Paperback: 160 pages

Publisher: Oxford University Press; 1 edition (December 14, 2012)

Language: English

ISBN-10: 0199812802

Customer Reviews

The print is too small for my taste. But it is a well researched book and the accompanying Ce is a

plus.
