Paint Along With Jerry Yarnell Volume Four - Painting Techniques

Synopsis

Jerry Yarnell is back to teach beginners and intermediate artists the techniques they need to create gorgeous paintings on canvas. Continuing from *Painting Magic*, he further encourages them to master composition, design, perspective, negative space, colour mixing, values and colour coordination. They'll also learn how to render water reflections, fog, mist, haze, trees, rocks, grass, bushes, leaves and more! Readers will put these new skills to use in eight beautiful painting projects. Each one is easy-to-do and comes complete with step-by-step instructions and photos.

Customer Reviews

Having more tools in the tool box is a good thing. And learning different ways to paint trees, water, rocks, people, just gives you more to look at. It is sort of like the fact that you can play a lot of songs with just 3 chords on the guitar. But it is better if you can change key, play several cords in each key.

Jerry Yarnell is an excellent acrylic painter. This book is another fantastic instructional book in his series of books. It contains great instructions and projects to increase your acrylic painting skills.

we had been looking all over for this book and here we found it for the least amount of money

Another good book to buy to learn how to paint landscapes. As a teacher he is excellent with multiple demonstrations for each picture. My only critique is that for me I love bold bright colours and

his painting is softer and more subtle but still lovely.

I have several books by Jerry Yarnell. My goal is to collect them all, I like this style of painting and am learning alot. The book came quicker than I thought and although a little crumpled with the shipping was still in good shape. I will continue to order more books.

Love the Jerry Yarnell books. If you are just starting, and want to take your time to learn how to paint, buy a few of his books and you can do nothing but great things.

If you love to paint, Jerry Yarnell is a wonderful instructor. The book is so informative it makes you feel you are in the classroom with the teacher.

You'll pay \$20 for these books at a craft store. All the volumes of these books are really good and for less than \$5, it's a great deal. Buy it from , it's really easy.
