## Customer Reviews

This is the forth harmonica book I have purchased and it is the best so far. The music is complete; not like other books with only parts of songs. The size of the book is good because the music is not compressed and allows easy reading. I also like the songs in it. I must say that I have no musical ability and I was able to play songs in a short a time. If I were to buy one book this would be the one.

It was a great book. I had never picked up a musical instrument or looked at a sheet of music before. Now I'm pretty good and can play Ode To Joy by Beethoven.
