Images From The Floating World

Synopsis

From DJ Flap: Book is a history of the development of ukiyo-e in its sociological context and of the lives of its masters with emphasis on innovation in style and techniques. The work takes into account the followers and schools, a comprehensive view of one of the most important epochs in Japanese art, illustrated by over 900 drawings. (Description by http-mart)

Best Sellers Rank: #1,339,960 in Books (See Top 100 in Books) #283 inÂ Books > Arts & Photography > Other Media > Prints

Customer Reviews

The best of the recent surveys and one that has been consistently reprinted over the years. The original edition was published in the USA by Putnam's in 1978. This K&K edition retains the original copyright date but is actually the second or third US reprint edition . The first reprint was from Dorset Press in 1992 and the most recent from Three Cs Publishing in 2006.

Awesome example of Japanese prints...this book was recommended by a master collector as a way to get started without spending a ton of money on actual prints and not knowing what you are buying. Supplier was excellent and shipped as promised...used book but LOVE IT!

It had a little more surface stains than expected

My reference encyclopedia!
