Customer Reviews

I bought this book for my boys 7 and 8 as a step up from a movie tunes book that was a little too easy. This book was the right difficulty level making them have to work a little harder for the finished product but not too hard for kids with only 1 year of piano lessons. I took a star away because in my opinion a sheet music book should be made in such a way that the book and pages can be comfortably opened all the way to allow for the book to sit on a music stand without damaging the book. This book has a thick spine and when you open the pages it "cracks the spine" which will eventually cause pages to come loose and fall out. Im probably asking too much for the price point but heck form/function accounts for something

We saw a bigger, more advanced book of Harry Potter sheet music in our local music store. This was a nice start for my boys, 11 and 7. They found their favorite Harry Potter songs and jumped right in. It is still challenging for them, but not so much that it is off-putting.

This book was perfect for my daughter, but when it arrived it was in poor condition, as if it had been owned already: pages were bent and the spine was cracked in several spots. If I hadn't needed it as a gift so soon after it arrived, it would have gone straight back to be replaced.

Everything arrived in excellent condition in a timely manner. This was just what I needed for my piano studio. My students are doing a "Harry Potter" recital. The music in this book can be adapted to many different levels, so it works great for this project. Thank you.

arrived looking brand new and ready to play. This is for my grand-daughter and I am sure that she will enjoy the music. Looks to be at just the right level for her ability.
