You're Not From Around Here, Are You?: A Lesbian In Small-Town America (Living Out: Gay And Lesbian Autobiog)

Synopsis

This is a funny, moving story about life in a small town, from the point of view of a pregnant lesbian. Louise A. Blum, author of the critically acclaimed novel *Amnesty*, now tells the story of her own life and her decision to be out, loud, and pregnant. Mixing humor with memorable prose, Blum recounts how a quiet, conservative town in an impoverished stretch of Appalachia reacts as she and a local woman, Connie, fall in love, move in together, and determine to live their life together openly and truthfully. The town responds in radically different ways to the couple's presence, from prayer vigils on the village green to a feature article in the family section of the local newspaper. This is a cautionary, wise, and celebratory tale about what it's like to be different in America—both the good and the bad. A depiction of small town life with all its comforts and its terrors, this memoir speaks to anyone who has ever felt like an outsider in America. Blum tells her story with a razor wit and deft precision, a story about two "girls with grit," and the child they decide to raise, right where they are, in small town America.

Book Information

Customer Reviews

A pregnant lesbian living in the middle of God's country: it sounds like the premise of a sitcom, but this personal narrative of love and childbirth in Wellsboro, Penn., is by turns poignant and wonderfully witty. Blum (*Amnesty*), a novelist and college professor, recounts the difficulties that being gay presents when one simply wants to get a mortgage, fix up a house and attend Lamaze

classes in a small town. But to Blum's credit, this is no rose-colored, resolutely middle-class, "we're just like everyone else" kind of gay autobiography. She is refreshingly honest not only regarding her ambivalence about having children, but also regarding the sexual tensions the pregnancy causes in her relationship with her partner. Her descriptions of finding a sperm donor are hilarious ("He's attractive, I'd think, shaking someone's hand. I wonder what his sperm count is?"). And the book is filled with touching surprises such as that Blum doesn't admit to herself that she's gay until a year after moving in with her lover. With astonishing resilience, she describes her family's close-mindedness, as well as the prejudice she encounters from the townspeople she'd come to trust. Unfortunately, there's no escaping the miniature terrors of small-town life; as Blum points out, describing a trip across America, "Wellsboro is everywhere." For most Americans, relocating to a small town, getting married, and starting a family is a cliché. For gays, lesbians, bisexuals, and transgendered people fearing isolation, ostracism, and worse such a step requires courage. Blum and her partner meet with obstacles not experienced by most Americans, as when they decide Blum will undergo alternative insemination and they are refused service by the first doctor they go to. After she gets pregnant, Blum is subjected to a hate sheet put out by students speculating that her child will be deformed. Even the couple's friends and supporters can't fathom the depth of their vulnerability. Blum's memoir ends at the birth of the couple's daughter, just when it becomes even more interesting: what is it like for a child to grow up with gay parents in small-town America? Blum's at times cautionary tale will be a reality check for LGBT readers and an eye-opener for straight ones. Recommended for all collections.
