Customer Reviews

What a piece of garbage! Can barely read the music. Horrible scanning job (parts of songs are split over random pages). An utter waste of money on something that should have been a breeze to create (i.e., create individual files in PDF and link together as a book). I'll never buy another Kindle songbook so long as this is what I can expect.

tab makes playing easy and fast to learn. in the back of the book it explains how to use the tab feature.
